

Kid's Workout

This program is ideal for kids beginning at the age of 8. The program is designed to be fun while increasing body awareness, stamina and confidence. We recommend that children work with an adult to learn proper form and to ensure safety. Begin with 12-15 repetitions that can be executed with good form. If you feel unable to maintain your form in your set, lower the level of incline. Perform 1-3 sets at a slow, controlled speed. Take rests as needed. Once you successfully perform more than 15 repetitions, raise the level of incline. Perform this routine 2-3 times per week alternating between workout options #1 and #2.
