

Men's Upper Body Strength

This program is designed to increase muscle strength and size for your upper body. Begin with 10-12 repetitions that can be executed with good form. If you feel unable to maintain your form in your set, lower the level of incline. Perform 1-3 sets at a slow, controlled speed. Take rests as needed. Once you successfully perform more than 12 repetitions, raise the level of incline. Perform this routine 2-3 times per week alternating between workout options #1 and #2.

Workout Option #1

Date	Card #	Exercise Name	Resistance Level	Reps	Sets
	7	Pull-Up			
	5	Incline Push-Up			
	11	Seated Row			
	43	Seated Biceps Curl
